# Town Meeting Preview

Cohasset will be facing a hefty warrant of 76 articles at Town Meeting April 7 at the high school gymnasium.

Many articles are routinely inserted each year, but several are expected to create discussion and debate. Over the next few weeks the **Mariner** will outline those articles.

There is plenty of controversy over Article 15 which requests \$30,000 to be expended by the Committee to Study Space Needs for Town Offices for the preparation of detailed plans and drawings in connection with securing bids for and the renovation of the Town Hall. The renovation is expected to cost \$326,000.

Article 16 requests by citizens petition on appropriation of \$325,000 by taxation borrowing to purchase building known as the Professional Building at 760 Chief Justice Cushing Highway. This building would be used for a new town hall and requires also an additional sum of money for renovations, relocation costs, furniture, furnishings and equipment. Expect controversy over this one, too.

If the townspeople approve of Article 19, the Town will have a chance to use the

\$15,000 held for its use on harbor maintenance by the Army Corps of Engineers — in conjunction with \$36,000 appropriated for the removal of rocks in the harbor.

Long range planning for the harbor is requested in Article 20 by appropriating \$5,000 for Cohasset's share in a Coastal Zone Management project.

Further maintenance around the peripheries of the harbor were requested by Harbormaster Harry Ritter in Article 21 to rehabilitate those seawalls by sandblasting, chinking and guniting. The front and side of the Sailing Club wall; the wall to the left of Government Island Pier to the Mill River bridge; the wall

along Border Street from Veterans' Memorial Park to and including the three walls at Lawrence wharf; and a section of wall on Margin Street require repairs at a cost of \$15,000.

Ritter also requests in Article 22 a \$20,000 appropriation for a municipal water way improvement and maintenance fund.

The Fire Station Study Committee submitted Article 24 and they request the Town to appropriate money to construct, equip and furnish a new sub fire station, to be located on the northeasterly side of Chief Justice Cushing Highway.

## Waste Systems

A South Shore conference on innovative sewage systems will be held in Cohasset March 31.

Conference speakers will outline case histories of several New England towns which solved their sewage problems in unconventional ways.

Speakers representing the EPA and the Department of Environmental Quality Engin-

earing will explain funding and regulating innovative systems. New techniques to extend the life of an on-lot septic system will also be examined. In addition, exhibits sponsored by companies manufacturing innovative systems will be displayed.

The conference, open to all South Shore residents will be located at St. Stephen's Parish Hall by the Common from 9:30 a.m. to 1 p.m.

The conference is cosponsored by the Cohasset League of Women Voters, Council of Garden Clubs and the wastewater Study Group.
